

Who do you turn to when you're sick?

24/7 Access to Cura TeleHealth Providers

When you're not feeling well, you want help now! Not days from now when an appointment opens up. Fortunately, you can receive expert care any time of the day.

Just pick up your phone or log onto your computer or tablet. Cura TeleHealth & Wellness medical providers can write prescriptions when medically necessary and permitted by law. **You won't be charged**, because the cost of the phone or video consultation is covered by your Allied health plan. However, there will be a minimal charge if you're covered through an HSA plan.

Register Today

Call 620-740-2872 or visit www.alliednational.com/telehealth to learn more and activate your account. You can get access to a telehealth medical provider immediately.

Here's Your Cura TeleHealth & Wellness Membership Card. Have your health plan ID card ready, too.
