

RECOMMENDED IMMUNIZATIONS – CHILDREN (AGES 0-18)

COVERED UNDER THE PATIENT PROTECTION AND AFFORDABLE CARE ACT

Keeping kids up to date on immunizations is an important part of keeping them healthy.

BlueCross covers child immunizations recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control (CDC), and Health Resources and Services Administration including the American Academy of Pediatric Bright Futures.

We also cover a variety of preventive screenings and services recommended by the American Academy of Pediatrics and U.S. Preventive Services Task Force.

These services are all covered at 100 percent when received from an in-network provider.
