

BlueEssentialsSM

2014 Covered Drug List

PLEASE READ: This document has information about the drugs we cover in this plan.

Members must use network pharmacies to get their prescription drugs.
Your benefits, drug list, pharmacy network, premium and/or copayments/coinsurance may sometimes change.

3/15/2014

What is the BlueEssentials Covered Drug List?

The Covered Drug List is the list of drugs we cover under your plan. BlueCross BlueShield of South Carolina works with a team of health care providers to choose drugs that provide quality treatment. We cover drugs on the Covered Drug List, as long as:

- The drug is medically necessary
- The prescription is filled at one of our network pharmacies
- Other plan rules are followed

For more information on how to fill your prescriptions, please review your plan document or other plan materials.

Can the Covered Drug List change?

The drug list may change from time to time. The enclosed drug list is up to date as of January 1, 2014. Always refer to www.SouthCarolinaBlues.com for the most current Covered Drug List.

How do I use the Covered Drug List?

There are two ways to find your drug on the drug list:

- 1. Medical Condition:** The drugs on this drug list are grouped by the type of medical conditions they are used to treat. For example, drugs used to treat diabetes are listed under the "Antidiabetics" category. You can search the Table of Contents to find your medical condition or the medication category.
- 2. Alphabetical Listing:** If you are not sure what category to look under, look for your drug in the Index that starts on page 128. The Index is an alphabetical list of all the drugs in this document. Both brand-name drugs and generic drugs are in the Index.
 - Look in the Index and find your drug
 - Next to your drug, see the page number where you can find coverage information
 - Turn to the page listed in the Index and find the name of your drug in the first column of the list

For more information

For more information about your BlueEssentials prescription drug coverage, please look at your plan document and other plan materials. If you have questions about BlueEssentials or this drug list, please call Member Services at the number on the back of your ID card.

The BlueEssentialsSM Covered Drug List

The drug list gives information about the drugs covered by BlueEssentials. The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., BYETTA). Generic drugs are listed in lowercase italics (e.g., *atorvastatin*).

The drug list has four coverage levels, called tiers. Please check your enrollment materials to find out how much you will pay for a drug on each of the tiers.

- Tier 1**– Drugs on this tier are usually generic and will generally cost you the least amount of money out of your pocket.
- Tier 2**– Drugs on this tier are most often brand drugs, sometimes referred to as “preferred” drugs, because they usually cost you less than other brand drugs.
- Tier 3**– Drugs on this tier are most often brand drugs, sometimes referred to as “non-preferred” drugs, because they usually cost you more than other brand drugs. They may have generic equivalents.
- Tier 4**– These are usually drugs which treat complex conditions and are usually very expensive. You will usually pay more for drugs in this tier.

You will also see a “0” next to some drugs. These are considered preventive medications under the Affordable Care Act (ACA) and are covered at no cost to you.

Some drugs in each tier are designated to be specialty medications and must be filled at Caremark Specialty Pharmacy. Caremark Specialty Pharmacy is an independent company that provides pharmacy services on behalf of BlueCross. The list of drugs that must be filled with Caremark Specialty Pharmacy is included at the end of this document.

Certain drug categories, such as weight loss and erectile dysfunction drugs, are excluded from coverage. Please see your plan materials for a complete list of these exclusions.

The information in the Requirements/Limits column tells you if BlueEssentials has any special requirements for coverage of your drug. These requirements and limits may include:

- **Prior Authorization (PA):** If your drug needs prior authorization, your doctor will have to get approval before we will cover your drug. There are different reasons a drug might require prior authorization. One is to make sure it’s being used for the condition(s) it was approved for by the U. S. Food and Drug Administration (FDA). Another is because there are drugs that usually work just as well, but cost less. **Please note:** PA** indicates that the PA is required only if a Step Therapy requirement is not met.
- **Quantity Limits (QL):** If your drug has a quantity limit, we will only cover a certain amount of the drug in a specified period of time, usually a month. This is to make sure you are using the drug safely and based on the FDA guidelines.
- **Step Therapy (ST):** If your drug has a step therapy requirement, we will only cover second choice drugs if you have already tried a first choice drug and it didn’t work for you. The reason for a particular step therapy requirement may be because there are drugs that usually work just as well, but will cost you less. It may also be because some drugs are approved by the FDA specifically as second-choice drugs or as add-ons to other medication.

What if my drug is not on the BlueEssentials Covered Drug List?

If your drug is not on this drug list, call Member Services to make sure that your drug is, in fact, not covered. If you learn that BlueCross does not cover your drug, you have two choices:

- Ask Member Services for a list of similar drugs that are covered under BlueEssentials. When you get the list, show it to your doctor and ask him or her to prescribe a similar drug that is on the Covered Drug List. Similar drugs that are preferred may be easier to get and cost you less than non-preferred drugs.
- Ask BlueCross to make an exception and cover your drug. There are different types of exception requests:
 - You can ask us to cover your drug, even if it is not on our drug list.
 - You can ask us to remove coverage restrictions or limits on your drug. For example, BlueCross limits the amount of certain drugs that we will cover. If your drug has a quantity limit, you can ask us to remove the limit and cover more.

Generally, BlueCross will only approve your request for an exception if the medication on the BlueEssentials drug list are not as effective in treating your condition or if they cause you to have adverse medical effects.

BlueEssentials Covered Drug List 2014

Drug Name	Drug Tier	Requirements/Limits
ADHD/ANTI-NARCOLEPSY/ANTI-OBESITY/ANOREXIANTS		
Amphetamines		
<i>amphetamine-dextroamphetamine cap sr 24hr 5 mg</i>	1	QL (90 caps / 25 days)
<i>amphetamine-dextroamphetamine cap sr 24hr 10 mg</i>	1	QL (90 caps / 25 days)
<i>amphetamine-dextroamphetamine cap sr 24hr 15 mg</i>	1	QL (30 caps / 25 days)
